Summary

With moderate experience in programming languages like python, JavaScript and C, I am a beginner in this field ready to make a difference.

I taken programming courses and programs alongside native education systems given me moderate information and skills .

I am a hardworking self learner,enthusiastic about solving real life problems and compatible with working with a team .

I have less than a year of experience in fields such as Artificial Intelligence and Web development. However I have created some intriguing projects based on those fields.

I am open to show my skills and values where it is needed

Thank you
